6. Project [REDACTED]

In the process of procuring necessary clearances and badges for employees scheduled for the Operations Course [REDACTED] beginning 18 January, it was determined that 23 persons of the original group of 96 are Staff Agent personnel. On the basis that the sponsoring Division assumes the responsibility for entering such personnel in a semi-overt course, the Office of Training requested a memorandum from IASO relieving this Office of the responsibility in case of compromise of the present or intended cover of such covert employees.

The Security Officer, CIA, responded in memorandum that as a general rule training of covert personnel at a semi-overt or overt installation cannot be approved. Recognizing the existence of exceptions to the rule, however, the Security Officer established a procedure of justification by the Office concerned through the Chief, FI, to the Special Security Division, IASO.

Seven staff employees in addition to the 23 covert personnel have been withdrawn from the class leaving a total of 66 students now enrolled in the course.

7. The reproduction and assembly of sixty-eight copies of the Basic Tradecraft Agent Training Manual in the Russian language has been completed, and these copies have been made available to the operating divisions.
